Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicants' representatives provided more detail limitations of claim 1 and argued Fritz's reference does not teach the derived context being generated by one or more successive applications to the entry context. Examiners referred to Fritz's reference at col.2 lines 53-65, fig.6, which teaches the retrieving of the most appropriate physical object upon the attributes of the user's front end. Applicants will consider further amendment the claim to clearly defined mapping process.
